A MESSAGE FROM OUR CHAIRMAN

Dear shareholders,

I am very pleased to share with you that GCPL has continued to deliver a strong performance in fiscal year 2015. Despite ongoing global macroeconomic challenges, our business has outperformed and grown ahead of the overall FMCG sector and the home and personal care categories that we participate in. This ensures that we are well on track to achieve our exciting growth aspirations of becoming an emerging markets FMCG leader.

We want to become more agile and future ready and continue to delight our consumers with innovative, superior quality products at affordable prices. In line with this objective, we have been driving a relentless focus on what we call 'Future Now' – our readiness to capitalise on the tremendous growth opportunities that we see ahead for our business. We are, therefore, strengthening our market leadership positions, consolidating our growing international presence and investing behind making our sales system, supply chain and people policies more robust. We believe that these efforts will help us create great value overall for all our stakeholders.

The global economy

Political uncertainty and economic volatility continue to define the global macroeconomic environment. Depreciating currencies and weakening growth remain significant challenges for the emerging markets that we operate in, including Indonesia, Argentina and South Africa. This slowdown has, in turn, impacted consumer sentiment and growth in the FMCG industry.

We are, however, confident of the long-term opportunities in emerging markets. There is also significant headroom for growth in our focal categories. In fact, estimates suggest that these markets will contribute close to 36 per cent of the forecasted increase in the world's population over the next five years. Close to half of the total global consumption is also slated to come from these markets.

“We have been driving a relentless focus on what we call 'Future Now' – our readiness to capitalise on the tremendous growth opportunities that we see ahead for our business”

The Indian economy

The overall sentiment in India has been quite upbeat, with a new growth-oriented government at the helm. A number of major initiatives and changes have been announced in different spheres, in line with larger socioeconomic growth and reform agendas.

Over the last year, we have seen a revival in the economy, with macroeconomic indicators now starting to trend in the right direction. GDP growth has increased to 7.4 per cent from 6.9 per cent in the previous year. Consumer inflation dropped to 6 per cent from 9.5 per cent. Steps have also been taken to improve the investment climate in the country. While India continues to be the highest-ranking country on Nielsen's Consumer Confidence Index, for the sixteenth quarter in a row, demand on the ground is yet to pick up. The easing of lending rates and structural reforms such as the implementation of the Goods & Services Tax (GST) and enactment of the land acquisition bill will be key drivers of demand, going ahead.

Following the significant slowdown in the FMCG sector in fiscal year 2014, the first half of this year recorded sluggish growth. We started to see early signs of a recovery in consumer demand though in the second half of the year. This will be a gradual process and we expect it to pick up pace in fiscal year 2016, aided by pro-growth measures like the GST. The fundamentals of the sector remain strong and there is still significant growth potential, given the low penetration and consumption rates for many FMCG categories in the country.

Perspectives on our performance

Our India business has delivered a strong performance. We continue to fortify our leadership position as one of the largest household and personal care companies in the country. We are leaders in hair colour, household insecticides and liquid detergents, the number two player in toilet soaps and a fast-growing entrant in air care.

Innovation is a key driver of our growth strategy. We have re-architected our approach over the last few years. Our focus has been on accelerating our innovation pipeline, ramping up internal capabilities, investing significantly in Research & Development and sharing learning across geographies to create more world-class products. These efforts are showing results. Close to 40 per cent of our growth now comes from new products and renovations. We have enhanced our product

portfolio with several launches and relaunches across our India and international businesses. Through our innovations, we are driving penetration and increasing consumption in our core categories, as well as extending into attractive adjacencies. GCPL was the highest ranked Indian company, at number 24, on Forbes' list of 'The World's 100 Most Innovative Growth Companies 2015', for the second year in a row.

Our international expansion is driven by a focused 3x3 strategy – a presence in three business categories (personal care, hair care and home care) in three geographies (Asia, Africa and Latin America) – to become an emerging markets FMCG leader. Today, our international business contributes to 47 per cent of our consolidated revenues. We are the number one player in air fresheners and wet tissues in Indonesia, and hair colour across various countries in Africa and Latin America. We are also leaders in hair extensions in Africa and the number two player in household insecticides in Indonesia. Overall, our strategy is to drive growth in the categories where we are leaders and have a competitive advantage.

Our largest international business, in Indonesia, grew well ahead of the FMCG market in the country. We have made good progress on the next phase of the integration of the Darling businesses in Africa and also acquired Frika, a leading premium hair extensions player in South Africa. This has helped us further consolidate our presence in the continent. In Latin America too, our business performed well. Growth in our UK business though, was slower.

We are ramping up capabilities and leveraging technology for better decision-making, to make our sales organisation in India more future-ready. This includes overhauling our go-to-market strategy, intensifying efforts to expand distribution reach and tapping opportunities in emergent channels like e-commerce.

Through our global, best-in-class supply chain, we have established centres of excellence in TPM, lean, six sigma and low cost automation across our business. We have set up a strategic sourcing team to leverage scale and reduce our procurement costs and also introduced an advanced technology solution to improve our planning and execution capabilities.

We take much pride in being an inspiring place to work and building an agile and high performance culture for our people. Our values of trust, integrity and respect for others continue to hold us in very good stead and are core to who we are as a company. We were ranked the number 1 FMCG company to work for in India in the 'Great Place to

Work Survey 2015'. This is our eleventh consecutive year on the list. We ranked number 14 on the 'Great Place to Work – Best Workplaces in Asia 2015' list and were featured among Aon Hewitt's 'Best Employers in India 2015'.

The Godrej Group has always actively championed social responsibility. We have crafted a vision for helping create a more inclusive and greener India, through 'shared value' initiatives that create both social and business benefits. We call this 'Godrej Good & Green'. As part of Good & Green by 2020, we will aspire to train 1 million rural and urban youth in skilled employment, create a greener India and innovate for good and green products. GCPL plays a key role in Godrej Good & Green through different employability and environmental sustainability initiatives.

“We are investing for the longer term and accelerating the pace of new product launches, to capitalise on the uptick in consumer sentiment and demand”

Outlook

We expect to see a gradual recovery in the macroeconomic environment and for the Indian economy to consequently, gather pace in fiscal year 2016. While macroeconomic factors remain challenging in some of our international markets, we believe that we are well placed to continue our strong sales and profitability growth momentum. Overall, our focus will be on sustaining and extending leadership in our core categories. We are investing for the longer term and accelerating the pace of new product launches, to capitalise on the uptick in consumer sentiment and demand. I am confident that with our clear strategic focus, differentiated product portfolio, superior execution and top-notch team, we will continue to deliver industry-leading results in the future.

I would like to take this opportunity to express my gratitude to all our business partners, vendors and other business associates, for all their contributions. Many thanks to the various central and state government authorities, for all the support that they continue to extend to our business. We owe our success very largely to the many contributions, dedication and commitment of all our team members, who work so hard to make GCPL so successful. My deep appreciation to each of you and your families. To all our stakeholders, for their continued interest, faith and encouragement through the years, a special thank you. We look forward to your continued partnership and support.

Yours sincerely,

Adi Godrej
Chairman

IN CONVERSATION WITH OUR MANAGING DIRECTOR

What is 'Future Now' all about?

We have ambitious growth plans. We aspire to become an emerging markets FMCG leader and delight our consumers with superior quality, world-class products at affordable prices. We believe that there are significant opportunities for growth in our core geographies and categories. In order to leverage this tremendous potential, we will need to become more agile and future ready as a company. So, we are building on the strong leadership positions of our brands, investing heavily in innovation, looking for ways to capitalise on the potential of our international businesses and ramping up our sales, supply chain and manufacturing systems. We are also ensuring that we have the right talent on board to lead all these efforts. This exciting, transformational journey at GCPL, is what we have named 'Future Now'.

Tell us more about innovation at GCPL and how it is driving incremental growth.

Innovation is a key driver of our growth strategy. Over the last few years, we have re-architected our approach – we are accelerating our innovation

pipeline, ramping up internal capabilities, investing significantly in Research & Development and sharing learning across geographies to create more exciting products. We also have cross-functional teams from across Design, Marketing, Innovation, Research & Development and Supply Chain, who come together to drive these different innovation projects.

In our India business, we have introduced several new products and renovations over the last couple of years, including air fresheners, crème hair colour in a sachet, anti roach gel, paper-based mosquito repellents, shower gels, the most powerful liquid vapouriser in household insecticides, a range of hand washes, hand sanitisers and personal repellents, facewashes and a range of premium hair care products. We have also launched a number of new products across our international businesses. In fact, GCPL was the highest ranked Indian company, at number 24, on Forbes' list of 'The World's 100 Most Innovative Growth Companies 2015', for the second year in a row.

Our focus on innovation has allowed us to not just build on our core categories, but also find new, emerging footholds in adjacencies and thereby broaden our portfolio and drive additional sales. Today, almost 40 per cent of our incremental growth

Vivek Gambhir
Managing Director

is being driven by these new launches. Our innovations address the bottom of the pyramid as well as provide premium benefits to our mass consumers, and are helping us accelerate our growth. For example, a couple of years ago, we democratised the crème colour category by introducing a disruptive crème hair colour in a sachet, a first for the Indian market. Good knight Fast Card, our hugely successful paper-based mosquito repellent at just one rupee, was designed as solution for the under penetrated rural market. Recently, we have extended our Godrej No. 1 soap brand to include a facewash range and created India's first ever multi-use facewash sachet.

“ Today, almost 40 per cent of our incremental growth is being driven by our new launches ”

How has GCPL rewired its approach to Marketing?

We follow an Integrated Marketing Communication approach, where the focus is on one big idea for each brand and driving impactful execution across all mediums: mass media advertising, online marketing, trade engagements, consumer engagements at the point of purchase and public relations. Our Cinthol brand, for example, is built around the idea of 'Alive is Awesome'.

Becoming 'Digitally Fit' is critical for us. This is not a choice between digital and traditional marketing, but an integrated approach, which makes digital a key part of the overall marketing strategy. We want to accelerate digital adoption and embed digital in our overall culture. So, we have hired digital managers as part of our brand marketing teams who are closely involved in the overall brand strategy. We are exploring different platforms and developing digital specific content, instead of just tailoring regular communication for digital use. Experimenting with mobile technology for more engagement and outreach is also an important area of focus.

Similar to our efforts on digital, we are also in the process of creating a separate team to spearhead rural marketing initiatives in our key rural markets. This is part of our larger 'One Rural' drive.

Our approach overall, is more 'whole-brained'. We are doing a lot more experimentation and prototyping and employing design driven thinking to come up with faster and better innovations. As part of our collaborative approach, we have set up cross-functional teams to drive our innovation agenda. We are investing significantly in ramping up Research & Development, as well as building specialised teams to support Design, Innovation and Packaging.

At the same time, we are leveraging data and setting up sharper processes to drive decision-making. In order to better optimise marketing spends, we are piloting marketing mix modelling and assessing other Return On Investment analytics. We are working closely with specialised agencies and our Marketing, Sales, Market Research and Media functions, to drive these efforts, and hope to see results in the year ahead.

Our teams are also spending more time on research. Consumer Quest, our consumer connect initiative, ensures that our team members across different functions spend time in conversation with consumers across the country. We have set up an in-house research team, which works closely with our brand teams. We are also investing in larger scale, behavioral science research.

International now contributes to half of GCPL's overall revenues. What is your outlook for these businesses?

Our approach to international expansion follows what we call a 3 by 3 strategy - building a presence in 3 emerging geographies (Asia, Africa and Latin America) across 3 categories (personal care, hair care and home care). We have considerably scaled up our international presence over the last five years, in line with our growth aspirations of becoming an emerging markets FMCG leader. Close to half our overall revenues now come from these geographies and our products are available in over 60 countries. Over two-thirds of our team members are also based outside India.

Our focus for the last few years, has been on successfully integrating our acquisitions and crafting a roadmap to realise the full potential of these businesses. What makes our approach unique, is that we are committed to sustaining the entrepreneurial spirit of our acquired businesses, while leveraging the benefits of scale that GCPL has to offer. So, we are working closely with our teams to build on our strong local brands and set up best-in-class processes. We are also driving a lot of cross-pollination of ideas and technology across these businesses.

“ What makes our approach unique, is that we are committed to sustaining the entrepreneurial spirit of our acquired businesses, while leveraging the benefits of scale that GCPL has to offer”

We believe that there are tremendous long-term growth opportunities in emerging markets. These geographies are home to 80 per cent of the world's population. They are also slated to account for over half of the increase in global consumption, going ahead.

As we see it, as incomes increase, middle class consumers with rising aspirations will seek new and exciting products, and new categories will be created. A large section of the population will also finally be able to afford branded consumer goods and will be looking for quality products at accessible price points. New distribution channels too will improve availability and enhance the buying experience. There will be a lot of growth potential in driving penetration and increasing consumption in our core categories, as well as extending into attractive adjacencies. We are well poised to address these opportunities.

Why did GCPL make the move to reorganise its businesses into clusters?

Last year, we organised our international business operations into clusters - Africa, Latin America & Europe, and Rest of Asia - to become more agile, provide greater focus and enable more cross pollination, while sustaining the entrepreneurial spirit of our unique multi-local model. The cluster heads, who are all seasoned Godrej leaders, became part of the GCPL Leadership Team and have been more closely involved in the overall business.

We also made our various functions like Human Resources, Supply Chain, Innovation and Research & Development, more global to better support our international operations and drive greater synergies. Our experience with this structure has been very positive.

As a next step in this journey, we have now extended the cluster structure to our India & SAARC business. We believe that this business is poised for tremendous growth. Our new structure will enable us to get better prepared now to achieve our aspirations for the future, while providing tremendous developmental opportunities for our team members.

What is GCPL doing to drive growth in rural India?

Rural accounts for 35 per cent of the overall FMCG sales in India. 65 per cent of FMCG growth also comes from this segment. It is, therefore, an important focus for us and we continue to make efforts to deepen distribution and reach. As a result of our efforts, Rural, which comprises close to 30 per cent of our India sales, is significantly outpacing Urban growth.

The rural consumer is also evolving fast and increasingly seeking branded, quality products. The emergent 'rural super consumer segment' in fact, is of particular interest to us. If you look at the data, today, the top 35,000 villages in India contribute to close to half of all rural consumption. This is a significant opportunity for us to tap into. So, our focus is on driving smarter and increased rural extraction. This involves enhancing productivity in the top 20,000 villages. In line with this, we are now ramping up sales manpower and setting aside focused marketing investments for these areas.

We have launched a 'One Rural' programme to leverage cross-functional efforts from across Sales, Marketing and Media. This helps us better explore rural media opportunities, fine-tune our rural go-to-market strategy and use technology to measure the effectiveness of spends and support better decision-making. We are also in the process of creating a separate team to spearhead rural marketing initiatives in our key rural markets.

How is GCPL's demand-driven global supply chain a competitive advantage for you?

Leveraging a global, best-in-class supply chain to become more agile, is imperative for us. We have integrated leading practices in demand driven supply chain, continuous replenishment and the Theory of Constraints, to make us more responsive to continuously changing consumer demand patterns. As a result of these efforts, we are clocking higher fill rates, which are now an industry

benchmark. We have mapped these cutting edge replenishment practices to the Advanced Planning and Optimisation module of SAP. These practices have now been deployed across our international businesses.

We are also equipping our manufacturing systems to become more flexible, with adequate capacity buffers, to support this agility in responding to changes in demand. This is being done through capacity de-bottlenecking using total productive maintenance, lean manufacturing, six sigma and low cost automation. Given the response to our new products over the last couple of years, we are also ramping up manufacturing capacity across geographies.

Our other initiatives are also complementing these efforts. Global strategic sourcing is resulting in significant benefits to our bottom-line. This year, we launched a project on bar coding shippers, which is progressing well. It helps improve the 'freshness' of our products at time of sale, while offering better logistics practices and product traceability.

Building a strong pool of women leaders is increasingly becoming a focus for companies today. What is GCPL doing to drive this?

At Godrej, we believe strongly in building and nurturing diverse teams. We have a Diversity & Inclusion programme that runs across our group of companies. One of the principal areas of focus is attracting, retaining and developing top female talent, so that we have a robust pipeline of potential leadership for the next three to five years.

We are reviewing our policies and infrastructure to ensure that we are providing the support that our talent requires to thrive at work. Our maternity policy of full pay for six months is generous, even at a global standard, and we are endeavouring to create an open and inclusive environment for our female talent, who return to work post an extended break. We have multiple flexible work, part-time, and work from home options, to support this.

We have created resource groups for working parents with children, cross-company leadership networks, and workshops and trainings on professional development. With this programme in place, we are also starting to define specific goals in terms of female representation in our teams and at different managerial levels. We are confident that in a few years, we are going to see a different profile of Godrejites.

GCPL has again ranked as the number one FMCG company to work for in India. What do you think makes you an employer of choice?

Being recognised as a great place to work is an important part of our overall ambition of being a leading global FMCG player. We take much pride in fostering an outstanding workplace and are fully committed to providing our team members with great careers, great rewards and a great work environment. We are also benchmarking ourselves against best-in-class global perspectives and becoming world-class in our approach to attracting, developing and retaining talent.

We are fortunate to be able to build on the strong Godrej legacy of trust, integrity and respect for others. At the same time, our exciting and ambitious growth plans translate into us being able to offer unparalleled career opportunities relatively early on in one's career.

We believe that passionate, rounded individuals with diverse interests make for better Godrejites. We also understand that our team members play multi-faceted roles, both at home and at the workplace. This is why we encourage them, not just to explore their whole selves, but also create an enabling space for them to do so.

Core to our employer brand, is the philosophy of tough love. We expect a lot from our team members, differentiate on the basis of performance and potential through career opportunities and rewards, and lay particular emphasis on developing, mentoring and training. We expect 100/0 – 100 per cent accountability and 0 excuses.

“ We are benchmarking ourselves against best-in-class global perspectives and becoming world-class in our approach to attracting, developing and retaining talent ”

What do you think you could have done better this year?

There are three areas that I can think of, where we could have possibly done better this year.

In India, our growth in the second half of the year was much better than the first half. While much of this was driven by challenges in the overall macroeconomic environment, we should have been more agile, anticipated the growth challenges earlier on and overall, executed better in the first half of the year.

Innovation is key for us. While we have been driving our innovation agenda, our pace of new launches could have been better, both in our India and international businesses. What is encouraging though, is that we have a slew of new products ready for launch in the coming year.

On the Marketing front, while we have made some good headway in digital, we still need to learn faster, experiment more and become more innovative in our approach.

What is GCPL doing to promote more inclusive and sustainable growth?

As a Group, we have always actively championed social responsibility. We are now exploring ways to further this commitment through 'shared value' initiatives that create both social and business benefits. In line with this, we have crafted a vision for playing our part in creating a more inclusive and greener India, called 'Godrej Good & Green'. As part of Good & Green by 2020, we will aspire to train 1 million rural and urban youth in skilled employment, create a greener India and innovate for good and green products.

GCPL plays a key role in Good & Green. Employability is high on our agenda. We have introduced different programmes to achieve our goals, that are delivering good results. Godrej Saloni, trains young women in beauty and hair care; Godrej Vijay, trains rural youth in channel sales; and Godrej Sakhi, helps rural women to become entrepreneurs. As of today, we have trained 85,000 youth as part of these programmes. To manage scale, we have built infrastructure to measure impact, enhance partner and programme capabilities and invested in technology solutions.

We are deeply committed to building environmental sustainability into our operations. We have implemented several initiatives to reduce specific energy and water consumption across all our manufacturing locations. We have also set targets for improvement on environmental aspects for the near term, including energy and water consumption and greenhouse gas emissions. These are regularly monitored to ensure progress. Our Green software too helps us map, understand and analyse our environmental footprint, from raw materials to finished goods, across all factories.

Our teams are also exploring ways of developing products that are 'good' and 'green'. A great example of this, is Good knight Fast Card, our paper-based mosquito repellent. Malaria is a serious concern in India. We see some 24 million cases of malaria each year, with 90 per cent of our population residing in malaria prone areas. To add to this, in rural India, the penetration of household insecticides is very low because current products are either expensive or require electricity. So, to tackle this problem, we created Fast Card, which is available at just one rupee, breaks the price barrier, works instantly and does not require electricity.

DIRECTORS' REPORT AND MANAGEMENT DISCUSSION & ANALYSIS

Your Directors have pleasure in presenting their Report along with the Audited Accounts for the year ended on March 31, 2015.

1. REVIEW OF OPERATIONS

Your Company has continued to grow ahead of the overall FMCG sector, as well as home and personal care categories that it participates in, despite a challenging macro environment.

Godrej Consumer Products Limited's ("GCPL") expanding footprint is driven by a focused 3x3 strategy – a presence in three business categories (personal care, hair care and home care) in three geographies (Asia, Africa and Latin America) – to become an emerging markets FMCG leader. Despite challenges across geographies, its businesses have performed well, with the company's salience of international revenues at 47%.

GCPL's focus has been to accelerate innovation and back new products with strong marketing investments. In the past year, GCPL made several new launches in its domestic and international businesses, expected to further enhance the company's competitiveness, improve the equity of its brands and drive increased penetration and consumption. Over 40% of GCPL's growth now comes from new products and

renovations. It was also the highest ranked Indian company (at number 24) on Forbes' list of the 'World's 100 Most Innovative Growth Companies 2015', for the second year in a row.

Today, your Company is one of the largest household and personal care companies in India; the leader in hair colour, household insecticides and liquid detergents, the number two player in toilet soaps and a fast-growing new entrant in air care. Significant marketing investments have driven higher consumption and penetration across the board. GCPL's superior global supply chain and future-ready sales organisation leverage the latest technology for sharper execution and better decision making, thus strengthening market positions.

Your Company was ranked the number 1 FMCG Company to work for in the 'Great Place to Work – Best Workplaces in India 2014' list; its eleventh consecutive year on the list. It was also ranked number 14 on the 'Great Place to Work – Best Workplaces in Asia 2014' list and ranked among the 'Aon Hewitt Best Employers in India – 2015' survey.

26. MANAGEMENT DISCUSSION & ANALYSIS

In order to avoid duplication between the Directors' Report and Management Discussion & Analysis, your Directors give a composite summary of the various businesses and functions of the Company, in the following pages.

OVERVIEW

Macro Economic Environment

Over the last year, we have seen a revival in the Indian economy, with macroeconomic indicators now starting to trend in the right direction. GDP growth has increased to 7.4% from 6.9% in the previous year. Consumer inflation dropped to 6% from 9.5%. The fiscal deficit target too, has been reduced to 3.9% of the GDP for fiscal year 2016, from 4.1% in fiscal year 2015. The current account deficit and the Government's subsidy bill, both fell by nearly 50 basis points (as a percentage of GDP) and have consequently, helped in fiscal consolidation.

Steps have also been taken to improve the investment climate in the country. This includes the fast-tracking of projects under the Cabinet Secretariat, increase in the insurance sector FDI limit to 49% from 26%, and the initiation of regulatory reforms in labour, environment clearances and the mining sector. While India continues to be the highest-ranking country in Nielsen's Consumer Confidence Index, for the sixteenth quarter in a row, demand on the ground is yet to pick up. The ease of lending rates and structural reforms such as the implementation of the Goods & Services Tax and enactment of the land acquisition bill will be key drivers of demand, going ahead.

Depreciating currencies and weakening growth continue to remain significant challenges for our businesses, globally. Our teams are however, navigating them with a sharp focus on costs and constant innovation.

FMCG Sector

Consequent to the turbulent macroeconomic scenario, the FMCG sector registered a sluggish growth in the first half of fiscal year 2015. Consumer demand in the second half of the year, however, started to show early signs of a recovery. While we see this as a gradual process, we expect the overall Indian economy to pick up pace in fiscal year 2016. Pro-growth initiatives by the government, such as the passing of the Goods & Services Tax Bill, will be greatly beneficial for this.

In this environment, our business has delivered strong, competitive double-digit growth across categories. We have also further strengthened our leadership positions across our core categories. Our robust performance is on the back of the gradual improvement we are seeing in the FMCG growth in India. This is aided by our continued focus on innovations and brand building, supported by competitive marketing investments and enhancements to our go-to-market infrastructure.

BEYOND BUSINESS
– GOOD & GREEN

Saloni

GOOD & GREEN

Building a more inclusive and greener India

As a Group, we have always actively championed social responsibility. We are now exploring ways to further this commitment through 'shared value' initiatives that create both social and business benefits.

As part of Good & Green by 2020, as a group we will aspire to:

Employability

Train 1 million youth in skills that will enhance their earning potential

As of March 31, 2015, GCPL has trained 85,000 youth in skills that will enhance their earning potential. These programmes comprise:

- 1 Beautician training for low income women
- 2 Channel sales training
- 3 Rural entrepreneurship training for women
- 4 Sales training in general trade

Greener India

Achieve zero waste to landfill, carbon neutrality and a positive water balance, while reducing specific energy consumption and optimising the use of renewable energy

At a Group level, the progress achieved by our factories in improving environmental sustainability performance, compared to a 2011 baseline, is as below.

Greener India Goal 2020	Achievement to date
Become carbon neutral	36% reduction in specific greenhouse gas emissions
Have a positive water balance	33% reduction in specific water consumption
Have zero waste to landfill	61% reduction in waste to landfill
Reduce specific energy consumption by 30%	30.8% reduction in specific energy consumption
Increase renewable energy sources by 30%	37.6% of total energy consumption from renewable sources

Product Innovation

Generate a third of our portfolio revenues from 'good' and/or 'green' products

Through innovation in our product pipeline, we are developing products that are safe and environmentally sustainable.

Good knight Fast Card

About 3.3 billion people are at risk of malaria, worldwide. India alone sees 24 million cases of malaria each year, with 90% of our population residing in malaria prone areas.

In rural India, in particular, penetration of household insecticides is very low because current products are either expensive or require electricity. With Good knight Fast Card, our idea was to launch a product that would break the price barrier (available at just ₹1 per card), work instantly and not require electricity.

We leveraged the idea of this revolutionary paper-based mosquito repellent from our Indonesia business and substantially modified the product for the Indian market.

27. INTERNAL CONTROL AND ADEQUACY

We have a proper system of Internal Controls to ensure that all assets are safeguarded and protected against loss from unauthorised use or disposition and that transactions are authorised, recorded and reported correctly.

Our Corporate Audit & Assurance Department which is ISO 9001: 2008 certified, issues well documented operating procedures and authorities, with adequate built-in controls at the beginning of any activity and during the continuation of the process, if there is a major change.

The internal control is supplemented by an extensive programme of internal, external audits and periodic review by the management. This system is designed to adequately ensure that financial and other records are reliable for preparing financial information and other data and for maintaining accountability of assets.

The GCPL Head Office and all major factories and offices across India operate on an Information Security Management System which is ISO/IEC 27001 certified.

28. RISKS AND CONCERNS

With our presence in three continents i.e. Asia, Africa and Latin America, we are exposed to risks which can adversely impact our operating performance, cash flows, financial performance, management performance and overall sustainability. We have an active risk management strategy in place and a Risk Committee, whose role is to identify potential risks, create mitigation strategies and monitor the occurrence of risk.

The risks that may affect us include, but are not limited to:

- Economic conditions.
- Inflationary pressures and other factors affecting demand for our products.
- Increasing costs of raw material, transport and storage.
- Supplier and distributor relationships and retention of distribution channels.
- Competitive market conditions and new entrants to the market.
- Labour shortages and attrition of key staff.
- Exchange rate fluctuation and arbitrage risk.
- Integration risks for acquired companies.
- Compliance and regulatory pressures including changes to tax laws.
- Seasonal fluctuations.
- Political risks associated with unrest and instability in countries where we have a presence or operation

29. OPPORTUNITIES AND THREATS

Close to 40% of our growth now comes from new products and renovations. We believe that there are tremendous long-term growth opportunities in emerging markets. These geographies are home to 80% of the world's population. Estimates suggest that these markets will contribute to close to 36% of the forecasted increase in the world's population over the next five years. Close to half of the total global consumption is also slated to come from here. We believe that there are significant opportunities for growth in our core geographies and categories.

On the domestic front, the fundamentals of the FMCG sector remain strong and there is still significant growth potential, given the low penetration and consumption rates for many FMCG categories in the country.

In terms of threats, the key threats are compliance and regulatory pressures including changes to tax law, seasonal fluctuations and unrest and instability in countries where we have a presence or operation.

OUTLOOK

We expect to see a gradual recovery in the macroeconomic environment and for the Indian economy to consequently, gather pace in fiscal year 2016. While macroeconomic factors remain challenging in some of our international markets, we believe that we are well placed to continue our strong sales and profitability growth momentum. Overall, our focus will be on sustaining and extending leadership in our core categories. We are investing for the longer term and accelerating the pace of new product launches, to capitalise on the uptick in consumer sentiment and demand. We are confident that with our clear strategic focus, differentiated product portfolio, superior execution and top-notch team, we will continue to deliver industry-leading results in the future.

30. ACKNOWLEDGEMENT

Your Directors wish to extend their sincere thanks to the Central and State Governments as also all the Government agencies, banks, customers, shareholders, vendors and other related organisations who, through their continued support and co-operation have helped as partners, in your Company's progress.

For and on behalf of the Board of Directors

BUSINESS RESPONSIBILITY REPORT

2014-15

PHILANTHROPIC EFFORTS OF THE GODREJ GROUP

The Godrej Group has been at the forefront of philanthropic and social activities for several decades. 25% of the shares of the Godrej Group's holding company Godrej & Boyce are held in a trust that invests back in initiatives that support the environment, and improve the quality and availability of healthcare and education. Through investment and oversight by the trust, a large tract of mangrove forests in Mumbai have been protected, developed and maintained for several years and have served as a second set of lungs for the city. The Godrej Group has supported education all through and supports the Udayachal pre-primary and primary schools, which focuses on all-round development of children. The Udayachal high school has been accredited with the International School Award in recognition of the school incorporating global education into its curriculum and innovation into classroom teaching.

Additionally, the Godrej Group has supported initiatives in healthcare, through its Godrej Memorial Hospital, which aims to provide quality healthcare at affordable costs. One such initiative is our partnership with a US-based NGO, Smile Train, which helps in performing corrective cleft lip and palate surgeries for children from low income families. The Group offers surgery and hospitalisation to the patients free of cost.

Table for Two

The Group continues to support the Indian chapter of Table for Two, initiated at the World Economic Forum India Summit in December 2009. Targeted at addressing hunger and malnutrition in the developing world, our involvement to the cause combines the Group's tradition of philanthropy and lends an opportunity to our team members to make a direct impact on someone's life.

Teach For India

GCPL has been supporting Teach for India since its inception in 2009. Teach for India is a nationwide movement of outstanding college graduates and young professionals who will commit two years to teach full-time in under resourced schools and who will become lifelong leaders working from within various sectors towards the pursuit

of equity in education. In 2009, Teach for India began its journey in the classrooms with 78 Fellows (or teachers) in 2 cities and across 34 schools covering 3,000 children. The movement has grown in 2014-15 to cover 268 schools in 5 cities with about 900 fellows, impacting a little over 30,000 children.

GODREJ GOOD & GREEN

In conjunction with our vision of 'Brighter Living' for all stakeholders, we have developed a long-term vision for playing an active part in creating a more inclusive and greener India. This vision has been named 'Godrej Good & Green'. Good & Green is founded on shared value initiatives. The concept of shared value is defined as policies and operating practices that enhance the competitiveness of a company while simultaneously advancing the economic and social conditions in the communities in which it operates. As part of Good & Green, the Group aspires by 2020, to create a more employable Indian workforce, a greener India and innovate for good and green products.

Specifically, our Group level goals for 2020 as part of this vision, are:

- Training 1 million rural and urban youth in skilled employment
- Achieving zero waste to landfill, carbon neutrality, positive water balance along with reducing our specific energy consumption and increasing proportion of renewable energy resources
- Having a third of our portfolio revenues comprising good and/or green products and services – defined as products that are environmentally superior or address a critical social issue (e.g. health, sanitation, disease prevention) for consumers at the bottom of the income pyramid

These goals are fuelled by Brighter Giving, a structured volunteering platform through which our team members can offer their time and skills to help address a non-profit organisation's needs. Through Brighter Giving, Godrejites can donate their time, knowledge and skills to help address a non-profit organisation's specific needs, on a project basis. Brighter Giving also serves as a channel through which our team members can connect with, and learn more about Good & Green. The programme takes a long-term view, seeking to enable and drive meaningful impact for our non-profit partners and/or their beneficiaries. Volunteers

accomplish this by using their corporate skills and expertise to build relevant, implementable and sustainable solutions for the organisations with whom they work. The programme was launched in July 2013 with a starting cohort of 15 Brighter Giving volunteers. Since then our Group has also partnered with two organisations who are helping us connect Godrejites to relevant projects as per their own time and convenience. Some of our GCPL team members also participate in Brighter Giving.

Brighter Giving, our structured volunteering platform for Godrejites to engage in skill-based, longer-term volunteering projects

NIL

Principle 6: Businesses should respect, protect, and make efforts to restore the environment

Good & Green is driven by the desire to help create a more inclusive and greener India. Launched in 2011 as one of our four key imperatives for 2020, Good & Green is based on shared value, a principle that aligns business competitiveness and growth with social and environmental impact. At its root lies the idea that companies can help solve critical social issues while strengthening their competitive advantage.

Greener India - Achieving zero waste to landfill, carbon neutrality, energy efficiency, positive water balance and a significant usage of renewable energy sources.

Good & Green products – Having a third of our portfolio revenues comprising good and/or green products and services – defined as products that are environmentally superior or addresses a critical social issue (e.g. health, sanitation, disease prevention) for consumers at the bottom of the income pyramid.

Our ‘good’ products are designed to address a critical social issue (e.g. healthcare and sanitation) for consumers at the base of the income pyramid. We define ‘green’ products as those that are environmentally sustainable.

We are continuously striving to achieve the goals and targets set under our good and green initiatives. Our efforts for energy conservation in all our units have resulted in reduction of specific energy and reduction in specific water consumption and Green House Gas (GHG) emissions.

Specific energy consumption of has reduced from 846 kWh/t in 2013-14 to 820 kWh/t in 2014-15. Specific GHG emission during the same period has reduced from 259 kg CO2 e/t during 2013-14 to 249 kg CO2 e/t for the year 2014-15.*

* Till last year, we were using combined margin grid emission factor as a measurement method, but now we have changed to average grid emission factor, which is more appropriate

While specific waste generation has been reduced from 12.1 kg/t during 2013-14 to 11.3 kg/t during 2014-15, waste sent to landfill has also been reduced from 1.28 kg/t in 2013-14 to 1.06 kg/t in 2014-15.

We are also using clean energy sources by shifting from fossil fuels to renewable fuels such as biomass utilisation in boilers and also procuring renewable energy. Renewable energy component has increased from 9% during 2013-14 to 10.3% during 2014-15.

[In line with our commitment to building a Greener India, we are making environmental sustainability a key part of our manufacturing process and value chain](#)

All the requirements of the Central Pollution Control Board and State Pollution Control Board have been complied with. Detailed checklists for compliance have been put in place. Continuous thrust is given on improving productivity and plant utilisation to improve specific consumption of water and energy. We have set targets for improvement in our environment performance for both short term as well as long term.

Does the policy related to Principle 6 cover only the Company or extend to the Group/joint ventures/suppliers/contractors/NGOs/others?

All of our major manufacturing units have policies on environment, health and safety measures. For the subsidiaries and joint ventures, the Code is applicable in line with the local requirements prevailing in the country of operation. Some of the initiatives include utilisation of biomass briquettes in place of coal, procurement of renewable energy, flue gas heat recovery from boiler and utilisation in the process, installation of energy efficient equipments, installation of energy saving lights amongst others. All our initiatives are covered and updated at www.godrejgoodandgreen.com

Does the Company identify and assess potential environmental risks? Y/N

Has the Company undertaken any other initiatives on clean technology, energy efficiency, renewable energy, etc? Y/N. If yes, please give the hyperlink to the webpage.

We have implemented over 40 initiatives across our manufacturing facilities in India on clean technology, energy efficiency and renewable energy. Some of the major initiatives we undertook during FY 2014-15 are:

- Installation of energy efficient water jet vacuum system in our soap dryers – Four vacuum systems using steam were replaced with energy efficient water jet vacuum systems at our Malanpur soap manufacturing plant. This resulted in steam saving of 60 kg/hour per dryer.
- Installation of oil preheater – An oil preheater was installed in the fat splitting plant to raise the oil temperature from 950C to 1350C. This resulted in reduction of overall thermal energy requirement due to improved atomisation of oil.
- Shifting of oil tanks from Chemical Plant-1 (CP1) to Chemical Plant-3 (CP3) at our soap manufacturing facility – As our CP3 operation yields better and lower energy consumption, the transfer of crude fatty acid stored in storage tanks from CP1 to CP3 resulted in additional steam flushing and pumping activity leading in steam and electricity savings.
- Capacity optimisation of chilling compressor - Enhanced the chiller and condenser to cater brine chilling requirement of two lines from a single compressor.
- Installation of energy efficient blower in soap drier – Existing 2 lube blower was replaced with energy efficient 3 lube blower at our soap manufacturing unit.

- Installation of energy efficient compressors – Reciprocating compressors replaced with variable speed drive screw compressors at two of our manufacturing plants.
- Implementation of heat recovery systems – heat recovery system was installed to capture waste heat from the boiler flue gases and utilise it to heat process water at one of our coil manufacturing plant.
- Replacement of coal with biomass briquettes – Biomass briquettes partially replaced coal in the boiler at one of our coil manufacturing plants.
- Implemented several energy efficient measures across various manufacturing plants, these included, optimisation in steam consumption, installation of energy efficient LED lighting, energy efficient pumps, air conditioning systems, replacing high HP motors with low HP motors, improvements in compressed air system.
- Installation of Reverse Osmosis (RO) systems – RO systems were installed at three of our manufacturing facilities for water treatment

Are the programmes/projects undertaken through in-house team/own foundation/external NGO/government structure/any other organisation?

Godrej Saloni is a programme that trains young girls and housewives in beauty and hair care. More than 22,000 candidates have graduated from this programme in FY 2014. Of this, close to 8,500 were part of the school programme.

The programme is currently operational in 185 centres across India. An in-house programme of 240 hours has been built to skill the candidates in basic beauty and hair care skills. The training makes use of GCPL products, which are also made available to graduates after the programme at a considerable discount. The curriculum is completely digitised and is available as audio-visual content. Separate modules on enterprise development and employment readiness too have been developed for the beneficiaries of all employability programmes to set them up for success early in their career.

Through our partnerships, we have been able to help 370 women find jobs in recognised parlour chains. Close to 75% of the graduates work as freelancers or micro entrepreneurs using their skills to generate income.

Saloni, our beautician training programme for low income women in India

The school girls' programme in beauty and wellness is offered in standard 9 as an elective subject. The programme is offered from standard 9 to 12. An after-school programme was also started to enroll students of standard 10.

As Fast Moving Consumer Goods and other similar industries expand in India, a ready pipeline of skilled talent for sales, particularly in rural areas, will be an essential enabler for growth. The industry currently records high attrition of entry-level sales representatives. This can be partly attributed to the lack of requisite skills, leading to an inability to meet targets and manage pressure at work. Godrej Vijay, our training programme in channel sales, was launched in 2011 to help skill unemployed youth and build a talent pipeline for the industry.

The programme has trained 38,999 youth across 44 locations in channel sales. The youth undergo 40 hours of training – half of which is spent in the classroom and the other half as experiential learning. The programme has been specially designed for the purpose of training distributor sales resources. Graduates of the programme may be placed with any of the Godrej companies or even other company distributors in the vicinity of the training. More than 75% of our Vijay graduates have been placed.

Vijay, our training programme for youth in channel sales aims at bridging the talent gap across FMCG and other allied industries

Godrej Sakhi is a programme that trains rural women to become entrepreneurs. These women traditionally advance their family incomes by managing a combination of small farm and non-farm microenterprises (both dependent on the vagaries of seasons and markets). This programme aims to teach rural women – who are either engaged in some form of entrepreneurship or plan to do so – in skills of market opportunity spotting, projecting revenues and earnings, sales & marketing, and time and financial management. About 2,500 women graduated from the programme this year.

Godrej Prerna is our sales training programme in general trade. The programme helps retail shop owners and in-shop associates build skills relevant to General Trade. It aims at equipping the small retailers with skills to compete

against the organised retail stores. The one for in-shop retail associates involves training in stock and shelf management. It helps them know their products and understand the growth drivers of the business. The other, for training shop owners, helps them understand the drivers of their business, how to efficiently manage stock and interact with customers. It also covers general trends in retail and self-service stores. This year about 3,000 people graduated from the programme.

The Board meets at least once in a quarter to review the Company's quarterly performance and financial results. Board meetings are governed with a structured agenda. The Board periodically reviews the Compliance Reports with respect to laws and regulations applicable to the Company. Before the commencement of the Audit Committee meeting, members of the Audit Committee – which consists entirely of Independent Directors – have a discussion with the Statutory Auditors, without the presence of the management team or whole-time directors in that meeting. O. National Electronic Clearing Services (NECS) for payment of dividend

The NECS facility administered by RBI ensures faster credit of dividends, as dividends are directly credited in electronic form to the bank accounts of the shareholders. Shareholders holding shares in physical form and who have not opted for NECS may post an NECS declaration form to Computech Sharecap Limited. Shareholders can obtain the NECS declaration form either from GCPL's Registered Office, Computech Sharecap Limited or download it from the Investors page on the GCPL corporate website www.godrejcp.com.

Shareholders holding shares in demat form are requested to provide details to NSDL/CDSL through their respective depository participants. It may be noted that if the shareholders holding shares in demat form provide the NECS data directly to the Company, the Company will not be able to act on the same and consequently dividends cannot be remitted through NECS.

P. Consolidation of shares under one folio

The Company would urge shareholders holding shares of GCPL under different folios to consolidate the shares under one folio. This would substantially reduce paperwork and transaction costs, and benefit both, the shareholders and the Company. Shareholders can do so by writing to the registrar with details on folio numbers, order of names, shares held under each folio and the folio under which all shareholding should be consolidated. Share certificates need not be sent.

FINANCIALS

Independent Auditors' Report

TO THE MEMBERS OF GODREJ CONSUMER PRODUCTS LIMITED

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of **GODREJ CONSUMER PRODUCTS LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2015, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial control system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2015 and its profit and its cash flows for the year ended on that date.

Emphasis of Matter

We draw attention to:

i) Note 12(b) regarding the Scheme of Amalgamation of the erstwhile Godrej Household Products Limited with the Company approved by The Hon'ble High Court of Judicature at Bombay, whereby an amount of ₹ 52.75 crore for the year ended March 31, 2015, equivalent to the amortisation of the Goodknight and Hit Brands is directly debited to the General Reserve Account instead of debiting the same to the Statement of Profit and Loss as per the provisions of AS 26. The said accounting treatment is in accordance with the accounting treatment prescribed in the Order of the High Court of Mumbai dated February 28, 2011 under section 394 of the Companies Act, 1956.

Had this amount been charged to the Statement of Profit and Loss, the profit for the year ended March 31, 2015, would have been lower by ₹ 52.75 crore and the General Reserve would have been higher by ₹ 52.75 crore.

ii) Note 23 on other income for the year ended March 31, 2015 including the recovery of loan amounting to ₹ 25.25 crore from GCPL ESOP Trust which was earlier written off and debited to Reserves under a Court approved Scheme of Amalgamation.

Our opinion is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2015 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure a statement on the matters specified in the paragraph 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143 (3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

- e) On the basis of the written representations received from the directors as on March 31, 2015 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2015 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The financial statements disclose the impact of pending litigations on the financial position of the Company – Refer Note 32 to the financial statements.

Deferred tax subject to consideration of prudence is recognised on timing differences; being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax asset/liabilities in respect of timing differences which originate and reverse during the tax holiday period are not recognised. Deferred tax assets/liabilities in respect of timing differences that originate during the tax holiday period but reverse after the tax holiday period are recognised. Deferred tax assets on unabsorbed tax losses and tax depreciation are recognised only to the extent that there is virtual certainty supported by convincing evidence that future taxable income will be available against which such deferred tax assets can be realized and on other items including MAT credit entitlement when there is reasonable certainty of realisation. The tax effect is calculated on the accumulated timing differences at the year-end based on the tax rates and laws enacted or substantially enacted on the balance sheet date.

r. Cash and Cash Equivalents

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to the equity shareholders and the weighted average number of equity shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

Emphasis of Matter

1. We draw attention to the following Notes to the Consolidated Financial Statements for the year ended March 31, 2015:

- a) Note 13(b) regarding the Scheme of Amalgamation of the erstwhile Godrej Household Products Limited with the Company approved by The Hon'ble High Court of Judicature at Bombay, whereby an amount of ₹ 52.75 crore, for the year ended on March 31, 2015, equivalent to the amortisation of the Goodknight and Hit Brands is directly debited to the General Reserve Account instead of debiting the same to the Statement of Profit and Loss as per the provisions of AS 26. The said accounting treatment is in accordance with the accounting treatment prescribed in the Order of the High Court of Mumbai dated February 28, 2011 under section 394 of the Companies Act, 1956.
Had this amount been charged to the Statement of Profit and Loss, the profit for the year ended March 31, 2015 would have been lower by ₹ 52.75 crore and the General Reserve would have been higher by ₹ 52.75 crore.
- b) Note 42(b) regarding the Scheme of Amalgamation sanctioned by the Supreme Court of Mauritius, whereby Godrej Kinky Holdings Ltd (GKHL) has been merged with Godrej Consumer Investment Holding Ltd (GCIHL) with effect from April 1, 2014. In accordance with the Scheme, for the purposes of preparation of the consolidated financial statements of GCIHL, the asset and liabilities of the subsidiaries of GKHL, as identified by the Board of Directors of GCIHL have been accounted at their fair values. Since the Board of Directors of GCIHL have decided to restate the value of an asset in accordance with the Scheme, the resultant impact amounting to ₹ 24.91 crore has been written off and debited against Surplus under Reserves and Surplus instead of debiting the same to the Statement of Profit and Loss in the year ended March 31, 2015 as per the provisions of AS 26. The above accounting treatment is made in accordance with the accounting treatment prescribed in Order of the Supreme Court of Mauritius dated July 11, 2014.
Had this amount been debited to the Statement of Profit and Loss, the profit before tax for the year ended March 31, 2015, would have been lower by ₹ 24.91 crore.
- c) Note 25 on other income for the year ended March 31, 2015, including the recovery of loan amounting ₹ 25.25 crore from the GCPL ESOP Trust which was earlier written off and debited to Reserve under a Court approved Scheme of Amalgamation.

Our opinion is not modified in respect of these matters.

Other Matters

- (a) We did not audit the financial statements / financial information of 10 subsidiaries, whose consolidated financial statements / financial information reflect total assets of ₹ 5,900.55 crore as at March 31, 2015, total revenues of ₹ 3,978.26 crore and net cash flows amounting to ₹ 97.16 crore for the year ended on that date, as considered in the consolidated financial statements.
These financial statements / financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, insofar as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.
- (b) The consolidated financial statements also include the Group's share of net profit of ₹ 0.04 crore for the year ended March 31, 2015, as considered in the consolidated financial statements, in respect of an associate, whose financial statements / financial information have not been audited by us. Notes to the Consolidated Financial Statements for the year ended March 31, 2015

NOTE1 : SIGNIFICANT ACCOUNTING POLICIES

a. Accounting Convention

The financial statements are prepared under the historical cost convention, on accrual basis, in accordance with the Generally Accepted Accounting Principles in India. The Company has prepared these financial statements under the historical cost convention on an accrual basis to comply in all material respects with the Accounting Standards specified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 and other accounting principles generally accepted in India and the relevant provisions of the Companies Act, 2013. The accounting policies have been consistently applied by the Company.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria's set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time taken between acquisition of assets for processing and their realization in cash and cash equivalent, the Company has ascertained its operating cycle as twelve months for the purpose of the classification of assets and liabilities into current and non-current.

b. Use of Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities as of the date of the financial statements and reported amounts of income and expenses during the period. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Actual results could differ from the estimates and differences, if any, are recognized in the period in which the results are known / materialized.

c. Fixed Assets

Fixed assets are stated at cost (net of cenvat credit and capital subsidy / grant wherever applicable) less accumulated depreciation and impairment losses, if any. The cost includes cost of acquisition, construction, erection, installation etc., preoperative expenses (including trial run) and borrowing costs incurred during construction period. Subsequent expenditure incurred on existing fixed assets is expensed out except where such expenditure increases the future economic benefits from the existing assets.

d. Asset Impairment

Management periodically assesses, using external and internal sources, whether there is an indication that an asset may be impaired. An impairment occurs where the carrying value of the Asset exceeds its recoverable amount. Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. An impairment loss, if any, is recognised in the period in which the impairment takes place.

e. Borrowing Costs

Borrowing costs that are directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is ready for its intended use or sale. Other borrowing costs are recognised as an expense in the period in which they are incurred.

f. Operating Leases

Leases of assets under which all the risks and rewards of ownership are effectively retained by the lessor are classified as operating leases. Lease payments/receipts under operating leases are recognised as an expense/income on a straight-line basis over the lease term.

Notes to the Consolidated Financial Statements for the year ended March 31, 2015

g. Investments

Investments are classified into current and non-current investments. Investments that are readily realizable and are intended to be held for a period less than twelve months or those maturing within twelve months from the balance sheet date are classified as 'Current Investments'. Investments other than Current Investments are classified as 'Non-Current Investments'.

Current Investments are stated at lower of cost and fair value and the resultant decline, if any, is charged to revenue. Non-Current Investments are carried at cost. Provision for diminution, if any, in the value of each non-current investment is made to recognise a decline, other than of a temporary nature.

h. Inventories

Inventories are valued at lower of cost and net realizable value. Cost is computed on the weighted average basis and is net of CENVAT credits. Finished goods and work-in-progress include cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Finished goods valuation also includes excise duty. Provision is made for cost of obsolescence and other anticipated losses, whenever considered necessary.

i. Provisions, Contingent Liabilities and Contingent Assets

A provision is recognised when the enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present values and are determined based on management estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence is confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Contingent Assets are neither recognised nor disclosed in the financial statements.

j. Revenue Recognition

- i) Sales are recognised on supply of goods when significant risks and rewards of ownership in the goods are transferred to the buyer. Sales are recorded net of returns, trade discounts, rebates, sales taxes and excise duties.
- ii) Income from processing operations is recognised on completion of production / dispatch of the goods, as may be provided in the terms of contract.
- iii) Dividend income is recognised when the right to receive the same is established.

- ii) Revenue expenditure on research and development is charged to the Statement of Profit and Loss of the year in which it is incurred. Capital expenditure incurred during the year on research and development is shown as addition to fixed assets.

l. Foreign Currency Transactions

- i) Transactions in foreign currency are recorded at the exchange rates prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currency remaining unsettled at the period end are translated at the period end exchange rates. The difference in translation of monetary assets and liabilities and realised gains and losses on foreign currency transactions are recognised in the Statement of Profit and Loss.

Notes to the Consolidated Financial Statements for the year ended March 31, 2015

- ii) The Group uses forward exchange contracts to hedge its exposure against movements in foreign exchange rates. Forward exchange contracts, remaining unsettled at the period end, backed by underlying assets or liabilities are translated at period end exchange rates and the resultant gains and losses as well as the gains and losses on cancellation of such contracts are recognised in the Statement of Profit and Loss. Premium or discount on forward foreign exchange contracts is amortised over the period of the contract and recognised as income or expense for the period. Realised gain/losses on cancellation/settlement of forward exchange contracts are recognised in the Statement of Profit and Loss.
- iii) Non-monetary foreign currency items like investments in foreign subsidiaries are carried at cost and expressed in Indian currency at the rate of exchange prevailing at the time of making the original investment.
- iv) For the purpose of consolidation of non-integral foreign operations, all assets and liabilities, both monetary and non-monetary are translated at the closing rate. Items of income and expenditure are translated at yearly average exchange rates. All resulting exchange differences are accumulated in a Foreign Currency Translation Reserve until disposal of the net investment.

m. Employee Benefits

i) Short-term Employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Short Term Employee Benefits are recognised as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the employee renders the related service.

ii) Post Employment Benefits

a) Defined Contribution Plans

Payments made to a defined contribution plan such as Provident Fund maintained with Regional Provident Fund Office and Superannuation Fund are charged as an expense in the Statement of Profit and Loss as they fall due.

b) Defined Benefit Plans

Gratuity Fund

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The Company's liability towards gratuity is actuarially determined using the Projected Unit Credit Method by an independent actuary. Actuarial gain and losses are recognised immediately in the Statement of Profit and Loss as income or expense. Gratuity is payable to all eligible employees on death or on separation/termination in terms of the provisions of the payment of the Gratuity (Amendment) Act, 1997 or as per the Company's scheme whichever is more beneficial to the employees.

Provident Fund

Provident Fund Contributions which are made to a Trust administered by the Company are considered as Defined Benefit Plans. The interest rate payable to the members of the Trust shall not be lower than the statutory rate of interest declared by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952 and shortfall, if any, shall be made good by the Company. The Company's liability towards interest shortfall, if any, is actuarially determined at the year end.

c) Other Long Term Employee Benefits

Notes to the Consolidated Financial Statements for the year ended March 31, 2015

Company determines the liability towards compensated absences based on an actuarial valuation carried out by an independent actuary as at the Balance Sheet date which is calculated using Projected Unit Credit Method. Actuarial gains and losses in respect of such benefits are charged to the Statement of Profit and Loss.

n. Incentive Plans

The Company has a scheme of Performance Linked Variable Remuneration (PLVR) which rewards its employees based on Economic Value Addition (EVA). The PLVR amount is related to actual improvements made in EVA over the previous year when compared with expected improvements.

Up to March 31, 2009, the EVA awards would flow through a notional bank whereby only the prescribed portion of the bank is distributed each year and the balance is carried forward. The amount distributed out of the notional bank is charged to the Statement of Profit and Loss.

The notional bank was held at risk and charged to EVA of future years and was payable at that time, if future performance so warranted. The notional bank balance accumulated till March 31, 2009, as at the beginning of the current year is being paid @ 33% every year on the reducing balance. The entire EVA award for the year has been charged to the Statement of Profit and Loss.

o. Employee share based payments

Equity settled stock options granted under the Company's Employee Stock Option (ESOP) scheme and Employee Stock Grant Scheme (ESGS) are accounted as per the accounting treatment prescribed by SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Guidance Note on Accounting for Employee Share based payments issued by ICAI. The Company measures compensation cost relating to employee stock options and stock grants using the intrinsic value method and compensation expense, if any, is amortised over the vesting period of the option on a straight line basis.

p. Depreciation and Amortisation

Depreciation is provided, under the Straight Line Method, pro rata to the period of use, based on useful lives specified in Schedule II to the Companies Act, 2013 except the following items where useful lives estimated by the management based on internal technical assessment, past trends and expected operational lives differ from those provided in Schedule II of the Companies Act, 2013 :

Tangible Assets

- i) Leasehold land is amortised equally over the lease period.
- ii) Leasehold Improvements are depreciated over the shorter of the unexpired period of the lease and the estimated useful life of the assets.
- iii) Office Equipments are depreciated over 10 years.
- iv) Tools, dies and moulds are depreciated over a period of 9 years and 3 years respectively.
- v) Vehicles are depreciated over a period ranging from 5 years to 8 years depending on the use of vehicles.
- vi) In some of the subsidiaries, useful lives are estimated to be lower as compared to useful lives defined in Schedule II of the Companies Act, 2013 for certain class of assets due to geographical environment.

Intangible Assets

Intangible assets are amortised on straight line basis as given below:

- i) Software license is amortised over a period of 6 years.
- ii) SAP licenses acquired pursuant to the Scheme of the Amalgamation of the erstwhile Godrej Household Products Limited (GHPL) with the Company are amortised over a period of 4 years. The cost of SAP licenses incurred for certain subsidiaries are being recovered from respective subsidiaries.

Notes to the Consolidated Financial Statements for the year ended March 31, 2015

- iii) Trademarks acquired are amortised equally over the best estimate of their useful life not exceeding a period of 10 years, except in the case of Goodknight, HIT, Kinky and Soft & Gentle brands where the brands are amortised equally over a period of 20 years. In accordance with the Court order approving the Scheme of Amalgamation of the erstwhile GHPL with the Company, an amount equivalent to the amortisation of the Goodknight and HIT brands at the end of each financial year is directly debited to the balance in the General Reserve Account.
- iv) Goodwill is amortised over a period of 5 years.
- v) Technical Knowhow is depreciated over a period of 10 years.

Residual value, is estimated to be immaterial by management and hence has been considered at ₹ 1.

It is estimated that the impact on depreciation and amortization of the difference in expected useful lives between the holding company and subsidiaries is not material.

q. Taxes on Income

Current tax is the amount of tax payable on the taxable income for the year determined in accordance with the provisions of the Income-tax Act, 1961.

Deferred tax subject to consideration of prudence is recognised on timing differences; being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax asset / liabilities in respect of timing differences which originate and reverse during the tax holiday period are not recognised. Deferred tax assets / liabilities in respect of timing differences that originate during the tax holiday period but reverse after the tax holiday period are recognised. Deferred tax assets on unabsorbed tax losses and tax depreciation are recognised only to the extent that there is virtual certainty supported by convincing evidence that future taxable income will be available against which such deferred tax assets can be realized and on other items including MAT credit entitlement when there is reasonable certainty of realisation. The tax effect is calculated on the accumulated timing differences at the year-end based on the tax rates and laws enacted or substantially enacted on the balance sheet date.

r. Cash and Cash Equivalents

Cash and cash equivalents includes cash in hand, deposits with banks and short term highly liquid investments, which are readily convertible into cash and have original maturities of three months or less.

s. Earnings Per Share

Basic Earnings per share is calculated by dividing the net profit for the period attributable to the equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit for the period attributable to the equity shareholders and the weighted average number of equity shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

t. Segment Reporting

The Group is considered to be a single segment group – engaged in the manufacture of Personal and Household Care products. The Group has identified business segment as its primary segment. Geographic segments of the Group are 'Within India' and 'Outside India'. NOTES:

- Trademarks and Brands acquired pursuant to the Scheme of the Amalgamation of the erstwhile Godrej Household Products Limited (GHPL) with the Company and Soft and Gentle Brand of UK are amortised over a period of 20 years. The major influencing factors behind amortising these brands over a period of 20 years are that Goodnight and HIT brands have been in existence since the last two decades and been growing at a fast pace. Soft and Gentle has been in existence for 40 years, and has spent much of that recent time ranked as the 4th largest by Market share in the female deodorant market in the UK.
- In accordance with the Scheme of Amalgamation of the erstwhile Godrej Household Products Limited with the Company which was sanctioned by the High Court of Judicature at Bombay, an amount of ₹ 52.75 crore (*previous year ₹ 52.75 crore*), equivalent to the amortisation of the Goodnight and HIT brands is charged directly to the General Reserve.
- During the year, the Company has capitalised borrowing costs amounting to ₹ 1.56 crore (*previous year ₹ 6.44 crore*).
- Acquisition through Business Combinations comprise of assets taken over on acquisition of 100% stake in Frika Hair (Pty) Limited.
- Other adjustments include re-classification of assets.
- Pursuant to Schedule II to the Companies Act, 2013 becoming applicable w.e.f. April 1, 2014, the Company has realigned the useful lives of its fixed assets in accordance with Schedule II and the carrying amount of such assets as on April 1, 2014 has been depreciated over the remaining useful lives. Further, in accordance with the transitional provision, an amount of ₹ 1.23 crore (*net of deferred tax*) has been recognised in the opening balance of retained earnings for adjustments of the carrying amount of fixed assets whose remaining useful life was *Nil*. There is no material impact on the depreciation charge on account of this change.

II. EMPLOYEE STOCK OPTION PLAN OF ERSTWHILE GODREJ HOUSEHOLD PRODUCTS LTD.

- a) Under the Scheme of Amalgamation, the Company has obtained the 'Godrej Sara Lee Limited Employees Stock Option Plan' set up for eligible employees of the erstwhile Godrej Household Products Limited. The equity shares of Godrej Industries Limited (GIL) are the underlying equity shares for the stock option plan. The ESOP Scheme is administered by an independent ESOP Trust created with IL&FS Trust Company Limited. The independent ESOP Trust has purchased shares of GIL from the market against which the options have been granted. The purchases have been financed by loans from the erstwhile Godrej Household Products Limited, which together with interest amounted to ₹ 27.21 crore as at beginning of the year. The ESOP Trust has made a net repayment of the loan amounting to ₹ 25.26 crore during the year. The total amount of loans outstanding together with interest thereon as at March 31, 2015 amounts to ₹ 1.95 crore which has been fully adjusted against the reserves in accordance with the scheme of amalgamation duly approved by the Hon'ble High Court of Judicature at Bombay during FY 2010-11. The repayment of the loans granted to the ESOP Trust and interest thereon is dependent on the exercise of the options by the employees and the market price of the underlying shares of the unexercised options at the end of the exercise period.
- b) The status of the above plan (since inception) is as under:

	As at March 31, 2015	As at March 31, 2014

- e) The Stock Grants shall vest in the Eligible Employees pursuant to the ESGS Scheme in the proportion of 1/3rd at the end of each year or as may be decided by the Compensation Committee from the date on which the Stock Grants are awarded for a period of three consecutive years subject to the condition that the Eligible Employee continues to be in employment of the Company or the Subsidiary company as the case may be.

EXPLANATORY STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013

ITEM 5

In pursuance of Section 148 of the Companies Act, 2013 and Rule 14 of the Companies (Audit and Auditors) Rules, 2014, the Company is required to appoint a cost auditor to audit the cost records for the applicable products of the Company. On recommendation of the Audit Committee at its meeting held on April 28, 2015, the Board considered and approved the appointment of M/s. P. M. Nanabhoy & Co., Cost Accountants as the cost auditor for the FY 2015-16 at a remuneration of ₹ 5.75 lac per annum plus applicable service tax and reimbursement of out of pocket expenses.

The Board of Directors recommend the Ordinary Resolution as set out in Item No. 5 of the Notice for the approval of the Shareholders.

None of the Directors, Key Managerial Personnel or their relatives are in any way, concerned or interested, financially or otherwise, in the said resolution.

ITEM 6

The Company had made a private placement of Non-Convertible Debentures (NCDs) aggregating to ₹ 250 crore in October 2014 for a tenor of 15 months. The same is repayable in December 2015 at a redemption premium of 9.40% p.a. The Company is looking at various options for funding the above repayment and one of the option is private placement of fresh NCDs.

Pursuant to Section 42 of the Companies Act, 2013 and Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014, a Company cannot make private placement of its securities unless the proposed offer of securities has been previously approved by the shareholders of the Company by a Special Resolution.

In case of offer or invitation to offer NCDs, the Company is required to pass a Special Resolution once in a year for all offers or invitations for such debentures to be made during the year.

The Company therefore, seeks an enabling authorisation to borrow funds by offer of NCDs on private placement basis for an amount not exceeding ₹ 300 Crore, at a coupon rate that will be determined based upon the prevailing money market conditions at the time of the borrowing.

It may be noted that the current net debt equity ratio of the Company is Nil. Post the repayment of the existing NCDs, in case the Company makes a private placement of fresh NCDs upto ₹ 300 crore, the debt equity ratio will remain unchanged.

The Board of Directors recommend the Special Resolution as set out in Item No. 6 of the Notice for the approval of the Shareholders.

None of the Directors, Key Managerial Personnel or their relatives are in any way, concerned or interested, financially or otherwise, in the said resolution.

ITEM 7

The Exchange Control Department, Reserve Bank of India vide its notification no. FEMA 20/2000-RB dated May 3, 2000 has permitted registered Foreign Institutional Investors (FIIs) to purchase shares or convertible debentures of an Indian company under the Portfolio Investment Scheme, subject to the terms and conditions specified in Schedule 2 to the above notification. The terms and conditions *inter alia* stipulate that the total holding by each FII/SEBI approved sub-account of FII shall not exceed 10% (ten per cent) of the total paid-up equity capital or 10% (ten per cent) of the paid-up value of each series of convertible debentures issued by an Indian company and the total holdings of all FIIs/sub-accounts of FIIs put together shall not exceed 24 per cent of paid-up equity capital or paid up value of each

series of convertible debentures provided that the limit of 24 per cent referred above may be increased upto the sectoral cap applicable to the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its General Body.

The Company at its AGM held on July 22, 2004, had taken consent for increasing the limit for investment by FIs in the equity share capital of the Company to 35%.

The shareholding of FIs in your Company as on March 31, 2015 was 29%, with no single FI holding above 10%. It is proposed to increase the limit from 35% to 40% of the Company's paid-up equity share capital as it will help diversify shareholder base and also provide further depth and liquidity to our equity shares.

The Board of Directors recommend the Special Resolution as set out in Item No. 7 of the Notice for the approval of the Shareholders.

None of the Directors, Key Managerial Personnel or their relatives are in any way, concerned or interested, financially or otherwise, in the said resolution.

On his 100th birth anniversary,
here's remembering with love, the man who shaped our future

Dr. Burjor Pirojsha Godrej

(June 23, 1915 – August 9, 1994)

By the time Dr. Burjor Godrej went to study in Germany, the Godrej Group had already earned a reputation for its pioneering work in soap manufacturing. In 1918, we launched Chavi, the first soap in the world to be made without animal fat. Soon after, came Godrej No. 2 in 1919 and then Godrej No. 1 in 1922. Both became widely popular.

Dr. Godrej went on to earn his Diploma-Ingenieur in general machine building, and his Doctor of Engineering degree from the Technical University of Berlin – Charlottenburg. His doctoral thesis, that he worked on during his time there, was titled 'A special process for the manufacture of soaps'. It specifically focused on the production of soap from fatty acids; something that he was deeply interested in.

On his return from Germany, Dr. Godrej successfully set up modern manufacturing facilities to produce all kinds of fatty acids, soaps, detergents, glycerine, cosmetics, as well as for the solvent extraction of oil-cakes and oil refining. He also obtained exclusive rights in India for the use of the wonder germicide G-11. This was a breakthrough in many ways, not just for Godrej, but for the soap industry in India.

Back then, many people still contested the fact that a high-grade soap could be made from fatty acids. Dr. Godrej was determined to prove them wrong. Under his leadership, we launched Cinthol on India's Independence Day in 1952. From the unforgettable Vinod Khanna riding a horse into the sunset to its refreshed 'Alive is Awesome' proposition, Cinthol is a legend in its own right. Together with Godrej No. 1, it makes us the second largest soap player in India.

Over 60 years down the line, India's first germicidal soap, the green 'Cinthol Original' with its signature red wrapper, is still a runaway success. Generations of loyal consumers swear by it. What is truly incredible, is that its formulation, created by Dr. Godrej back then, with its powerful germicidal and deodorising properties and distinctive fougère (fern) perfume, still remains unchanged even today.
