24 Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Climate change	Risk	Climate change is a critical challenge facing our planet, and its impacts are already being felt worldwide. Businesses and economies are particularly vulnerable to climate-related risks, such as supply chain disruptions, increased insurance premiums, and regulatory penalties. The largest pool of consumers we serve are in tropical countries like India, Indonesia and African countries and all of these are seeing significant impacts of climate change – unpredictable weather, scanty or excessive rainfall.	We have conducted a risk assessment based on the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD) to identify climate-related risks and develop effective strategies to mitigate them in the long term. We have incorporated climate change related risks in our enterprise risk management system to track them periodically. Furthermore, we have optimized our processes to reduce our carbon footprint and work towards achieving our goal of net zero emissions.	Negative implication
2	Occupational health & safety	Risk	Physical risk to the workforce in manufacturing operations and frontline distribution teams. Risk of appropriate handling, training and safely disposing of waste. Risks of unrest due to incidents in both the workforce and the local communities that they are from.	We have a dedicated human rights policy, strong SOPs to ensure highest adherence to health and safety, and a governance mechanism to ensure any incidents are duly investigated and resolved for the future. We ensure periodic review of safety procedures and the Central Safety Committee and committees at plants review monthly data for occupational health and safety.	Negative implication
3	Changing consumer preferences	Opportunity	The change towards the natural and sustainable options with emphasis on the entire value chain to be sustainable	We have conducted Life Cycle Assessment of more than 50% of our products (with a plan to cover 80% by 2025) to assess where in the value chain can be more sustainable on all environmental fronts - energy, water, plastic and waste. We are working on the findings of the reports to make our products demonstrably greener. A great example of our green product is our innovative power-to-liquid Magic hand wash which is the world's most affordable hand wash. It uses half the plastic packaging compared to a regular hand wash refill, and only a quarter of the fuel to be transported. We're also working, finding and testing alternate packaging materials and increasing use of PCR (Post-Consumer Recycled) plastic to move away from virgin plastic.	Positive implication
4	Cybersecurity	Risk	We often store large amounts of sensitive data, including financial information, customer data, and	In process of developing robust cybersecurity strategies that incorporate risk assessment, threat monitoring, incident response plans, and	Negative implication

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
			<p>proprietary technology. It also relies on online platforms to connect with customers and suppliers, conduct transactions, and manage their supply chains. This makes them prone as targets for cybercriminals who seek to steal data, disrupt operations, or extort money.</p>	<p>employee training. We also regularly update our cybersecurity systems and infrastructure to keep up with the evolving threat landscape. By taking proactive measures to protect our digital assets, we mitigate the risk of cyber attacks and safeguard their reputation and financial wellbeing. We have implemented a cutting-edge disaster recovery solution that is both robust and fully automated, ensuring that our operations remain resilient even in the face of unforeseen disasters. We have bolstered our security measures to provide enhanced protection for our endpoints, email, and internet security, particularly in the context of a work-from-home scenario. Our teams control, monitor, and log all access to protected assets. We have defined and enforced secure change control and configuration management processes. We train all our employees in incident-handling and contingency plans. Further mitigation measures include advanced web security for work-from-home, perimeter intrusion prevention, perimeter firewalls, application firewalls, internal firewalls, and advanced server security.</p>	
5	Evolving regulations	Risk	<p>Stringent regulations/ ban limiting the use of some ingredients or packaging material like plastic. Evolving regulations on carbon pricing, ESG disclosures, and other government mandated disclosures on ESG issues.</p>	<p>We have the highest levels of statutory compliance and ensure all regulations and law of the land is adhered to. We have an internal system called Legatrix that helps all manufacturing units monitor adherence to compliance and regulations. It enables management with an one-stop view of the organisation's compliances and control mechanism through comprehensive compliance dashboards and provides necessary information at the operating level by creating comprehensive Matrix on laws and it's management. Further, our Corporate Affairs, Legal and Audit teams are in constant communication with key government departments and industry bodies to keep track of new and emerging regulations. They routinely assess and analyse regulations to assess how these will impact business and mitigation for the same.</p>	Negative implication

12 Describe the measures taken by the entity to ensure a safe and healthy work place.

Our company vision is to bring about a strong Safety and Health culture and create an incident free organization. We are committed to provide a safe and healthy work environment for the well-being of all GCPL employees & stakeholders.

In order to achieve our aspirations, we have outlined a four pillar approach towards safety. These four pillars include:

1. People and Culture
2. Safety Infrastructure
3. OHS Management System
4. Automation, Technology and AI

We believe that people are the key to build a strong safety culture and as a company we should strive to connect each and every employee by using innovative ways like hands on trainings, skits and safety competitions. Company has focused on improving safety awareness among all employees and contractual workforce. We arrange over 300 safety training programs across plants and cover over 6,000 employees, workers and contractual workforce every year.

Our safety performance was also recognized by various renowned national agencies such as NSC, CII for improvement in safety.

After the assessment scoring, we worked with the suppliers who lacked measures on health and safety in their operations. For example, one of the suppliers we identified who lacked measures on health and safety, crafted a plan for their employee health & safety awareness.

PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders

Essential Indicators

- 1 Describe the processes for identifying key stakeholder groups of the entity.

In consultation with our multiple business functions, we identified and formed a list of the most relevant stakeholders who are critical to our business. We formulated a stakeholder engagement process that will enable us to consult them, keep them informed of the latest activities, engage with them regularly and collaborate with or empower them. We gauged the level of engagement of each stakeholder group. For us, at GCPL, stakeholders are those individuals or groups of individuals who can be impacted by and have an impact on our products, services and activities. We prioritised the stakeholders based on the extent of their influence on our business functions and also their dependence on us. We selected a representative sample of each stakeholder group from each location. We then conducted engagements through various forums and discussion platforms.

- 2 List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Stakeholder Group	Whether identified as Vulnerable & Marginalized Group (Yes/No)	Channels of communication (Email, SMS, Newspaper, Pamphlets, Advertisement, Community Meetings, Notice Board, Website), Other	Frequency of engagement (Annually/ Half yearly/ Quarterly / others – please specify)	Purpose and scope of engagement including key topics and concerns raised during such engagement

Beneficiaries	Yes (People from underprivileged communities)	NGO network, community discussion, meeting with beneficiary	Programme need based	Feedback on the programme, needs of the community

Leadership Indicators

- 1 Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

We organise periodic materiality study findings and share with the GCPL Board. In addition, regulatory changes, inputs, requests from investors, evolving supplier scenario, feedback from CSR implementation partners and local communities are informed to the Board and their guidance is sought for way forward on these matters. Moreover, the CSR committee Board members visit our programmes on ground and communicate directly with our beneficiaries and NGO partners on ground.

- 2 Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

We carried out a formal stakeholder engagement process while carrying out the materiality study in 2020. Their inputs covered a number of ESG material concerns, which have since also been incorporated into the ESG committee focus areas. For example, sustainable packaging was one of the biggest priorities. Since then it has become a major focus area and we have reduced our plastic packaging intensity and increased our recyclable plastic packaging. Similarly building inclusive and prosperous communities was another important material issue and we have since stepped up our investment in communities from less than 5% in FY20 to over 17% in FY23.”

- 3 Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

None. We will consider tracking and documenting this information in FY24.

- 4 Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes. GCPL has a Board level ESG Committee that oversees our human rights performance. In addition, we have Working and Steering Committees with representatives from Human Resources Leadership and Sustainability functions.

- 5 Describe the internal mechanisms in place to redress grievances related to human rights issues.

All plants have a grievance redressal system to via which workers can raise any issues/complaints. The same are then resolved speedily and in a fair manner. In addition, we have a dedicated POSH complaint mechanism and whistle blower policy to report relevant issues.

7 Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

We have set up a complaints committee for grievance redressal and we have this communicated through our policy roll-out to share points of contact. We have launched, Conduct, a virtual platform for the reporting and redressal of complaints against sexual harassment to enable anonymous reporting and discussions. Our gender-neutral policy enables our employees from all genders to avail the protection against sexual harassment at the workplace. Post resolution of POSH complaints, decisions such as change of teams, locations, working arrangements, termination of respondent etc. further prevent adverse consequences.

8 Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes. All our suppliers are part of the sustainable supply chain policy where Human Rights indicators form a core part of the policy

Leadership Indicators

1 Details of a business process being modified / introduced as a result of addressing human rights grievances/ complaints.

One thing we implemented is for each employee to acknowledge the Code of Conduct at the time of their joining, to ensure they up-hold the values of safety, respect and Human Rights at Godrej. The Code of Conduct also provides information on points of contact who will take any complaints in this respect forward. We have also started POSH sensitization workshops in partnership with experienced third party vendors and all employees have to mandatorily complete POSH eLearning module on the employee portal. The IC members have to undergo trainings every 6 months on how to deal with cases and provide support to the aggrieved parties. Complaints and cases are tracked and reviewed at the central level by leadership and HR teams at periodic basis.

2 Details of the scope and coverage of any Human rights due-diligence conducted.

None

3 Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Our Godrej One (Global headquarters) is accessible for differently abled visitors and workers with infrastructural modifications being updated on an on-going basis. Modifications are in progress for regional and manufacturing units. Third party contractors are employed to conduct independent audits of our infrastructure in our manufacturing units so that we improve our facilities at a regular basis.

4 Details on assessment of value chain partners:

	% of value chain partners (by value of business done with such partners) that were assessed
Sexual harassment	71%
Forced Labour/Involuntary Labour	71%
Discrimination at workplace	71%
Child labour	71%
Wages	71%

PRINCIPLE 6: Businesses should respect and make efforts to protect and restore the environment

Essential Indicators

1 Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format:

	FY 22-23	FY 21-22
Total electricity consumption (A)	146,207,215	159,520,153
Total fuel consumption (B)	729,535,288	734,312,200
Energy consumption through other sources (C)	-	-
Total energy consumption (A+B+C)	875,742,504	893,832,353
Energy intensity per rupee of turnover (Total energy consumption/ turnover in rupees)	0.0116	0.0129
Energy intensity (optional) – the relevant metric may be selected by the entity	2,634	2,695

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. -

YES. Independent assurance carried out by TUV India

2 Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any

Not Applicable

3 Details of total water consumption in the following format:

	FY 22-23	FY 21-22
Water withdrawal by source (in kilolitres)		
(i) Surface water	158,665	115,768
(ii) Groundwater	336,482	313,451
(iii) Third party water	0	0
(iv) Seawater / desalinated water	0	0
(v) Others	0	
Total volume of water withdrawal (in kilolitres) (i + ii + iii + iv + v)	495,147	429,219
Total volume of water consumption (in kilolitres)	495,147	429,219
Water intensity per rupee of turnover (Water consumed / turnover)	0.0000066	0.0000062
Water intensity (optional) – the relevant metric may be selected by the entity	1.49	1.29

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency - YES. Independent assurance carried out by TUV India

4 Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Yes, we have set up a ZLD process at each of our plant locations. For instance, in the North, the CETP at the Baddi site is where they transfer all the effluents after primary treatment, whereas at the Jammu location, along with ETP/STP, we recycle treated water and use for domestic purpose in our plant.

In south cluster, there are no process waste water generated; instead, only lab wash waters is discharged. We ensure ZLD in all of the South Cluster's units by utilising STP to treat household waste water. Since the treated water is used for domestic purposes, and no water is discharged out of any of our plant locations.

5 Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

	Unit	FY 22-23	FY 21-22
NO _x	Tonnage (t)	88.8	77.7
SO _x	Tonnage (t)	136.4	162.3
Particulate matter (PM)	Tonnage (t)	49.3	63.6
Persistent organic pollutants (POP)		N/A	N/A
Volatile organic compounds (VOC)		N/A	N/A
Hazardous air pollutants (HAP)		N/A	N/A
Others – please specify		N/A	N/A

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency -

YES. Independent assurance carried out by TUV India and monthly environmental testing and assessment carried out by MOEF&CC approved agency - Advanced Environmental Testing and Research Lab Ltd.

6 Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

	Unit	FY 22-23	FY 21-22
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	33,803	31,826
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	26,895	28,876
Total Scope 1 and Scope 2 emissions per rupee of turnover		0.00000081	0.00000087
Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity		0.183	0.183

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency -

YES. Independent assurance carried out by TUV India

7 Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Yes, GCPL has installed several solar power plants to increase the renewable energy consumption and reduce GHG. We also purchase open access power and use biomass for thermal energy requirement in our boilers. GCPL is also planning to set up a 1.5 MW Biomass based Cogeneration Power Project in Malanpur, Gwalior to replace natural gas.

In addition to increasing renewable energy consumption, GCPL also has a strong energy efficiency programme and specific energy reduction targets. We are committed to the Climate Org's EP100 initiative, to double our energy productivity by 2030 as against the 2018 baseline.

GCPL has committed to reducing its emissions in line with the global SBT initiative and has set and submitted science based reduction targets for emissions aligned with the Well Below 2 Degrees Scenario (WB2DS), which are currently being validated by the SBTi committee.

8 Provide details related to waste management by the entity, in the following format:

	FY 22-23	FY 21-22

5 With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

All of our operations and offices are situated in designated industrial zones and complying to all environmental standards of impact assessment. We do not have any facilities or operations in ecologically sensitive areas where environmental approvals / clearances are required

6 If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Energy consumption reduction	Replacing Pakona with Ezee 40 gm multitrack machine at Lokhra II	Annual Energy Saving 145,981 kwh
2	Energy Saving	Use of DM water in place of Distilled water for Developer batch making in crème manufacturing at New Guwahati, New Conso and Lokhra II units.	Annual Energy Saving 11,765 kwh Annual HSD saving – 96 KL
3	Energy Saving	Power saving through speed synchronization by interlocking of MPC and eliminate idle running of TRM	Annual Energy Saving 155,520 kwh
4	Energy Saving	Energy saving by replace UB cutter pneumatic cylinder with servo motor	Annual Energy Saving 101,376 kwh

7 Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

We have built a sturdy Business Continuity Plan to further strengthen our business. Our Business Continuity Plan (BCP) consists of annual budgeting, long-term budgeting, a career development plan for employees and succession plan for all the key positions. The assessed operational impacts include those related to life safety, customer service, revenue/ cash flow, public image, regulatory, product development, competitive advantage, financial control/ reporting, liability increase.

The main objective is to ensure business continuity and zero negative impact on society, environment, stakeholders and economic losses. To make this BCP more robust in the company, organization conducts internal and external risk assessments and trainings for its employees and workers. Major organizational risks are identified, measured, monitored and reviewed by central risk review committee. This risk review committee consists of board of directors.

8 Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

GCPL has a sustainable procurement policy (https://godrejcp.com/public/pdfs/codes_policies/sustainability/Sustainable-Procurement-Policy.pdf) under which the expectations for our suppliers are outlined to improve their sustainability performance. As part of the policy, GCPL engages a third party agency to conduct an annual supplier sustainability assessment and gives the suppliers feedback on areas of improvement. In addition, we continuously share our ESG best practices with our suppliers through periodic engagement.

9 Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

71%

PRINCIPLE 7: Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators

- 1 A. Number of affiliations with trade and industry chambers/ associations.
- B. List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to.

- 3 Describe the mechanisms to receive and redress grievances of the community.**

GCPL is committed to respecting the rights of local communities. The GCPL Human Rights policy explicitly commits to the principle of free, prior and informed consent, and support its implementation by relevant national authorities within their legal frameworks. It is for this reason that most of its manufacturing units are set up in pre-designated industrial zones. The HR/Admin teams are in regular communication with the local government and communities for CSR project needs and implementation. Our teams also regularly volunteer their time for environmental conservation and to help improve quality of education for children from underprivileged communities.
